Pruitt Applauds Ruling on Federal Health Care Law

OKLAHOMA CITY – Attorney General Scott Pruitt released a statement in support of the ruling by the U.S. appeals court:

“I am pleased the 11th circuit ruled today that the federal government cannot force Americans to buy health insurance.

“Indeed, the ruling affirms and strengthens Oklahoma's position,” said Pruitt.

Pruitt continued, “It has always been our belief the individual mandate was unconstitutional and that Oklahoma and other states have the right to challenge the law.”
